1. Beginning Balance

The starting point of the schedule is the notes receivable balance at the beginning of the reporting period. This figure is usually taken from the previous period's ending balance or the prior year's closing balance.

2. Additions (New Notes Issued)

This section records any new notes receivable issued during the period, such as loans made to customers or other parties. It increases the total notes receivable.

3. Collections (Principal Payments)

Represents the amount collected from debtors during the period. It decreases the notes receivable balance and may include both principal payments and interest income.

4. Write-offs

Any notes deemed uncollectible are written off, reducing the receivable balance. Write-offs are often based on collection efforts failure or confirmed defaults.

5. Adjustments

Includes any other changes affecting the notes receivable balance, such as reclassifications, foreign currency adjustments, or corrections of errors.

6. Ending Balance

The calculated balance of notes receivable at the end of the period after accounting for all additions, collections, write-offs, and adjustments.
